DECEMBER 2019

INTRODUCTION TO ROBOT – C

BBC is offering a two day holiday Introduction to Robot-C workshop over the Term 4 break for boys and girls in Years 7 to 10. This is an introductory to intermediate level workshop and would be suitable for students who are beginners or who have had some programming experience.

The Introduction to Robot-C workshop will focus on computer programming skills that can be used to support the learning of coding in schools, in particular, the Robocup Junior competition. Students will work individually and in small groups and use text-based programming language to complete set tasks. All of this takes place in a fun and educational environment.

BBC is continuing this new initiative to make coding accessible to everyone and we are pleased to extend the invitation to our wider local community.

Robots, Computers and Software are provided.
Supervised by teachers and coaches.
Students must bring their own lunch.

DATE   Monday 9 December and Tuesday 10 December

TIME   9.00am to 3.00pm

VENUE   Brisbane Boys' College
Level 1, Middle School Precinct
(enter via Moggill Road entrance)
