

DECEMBER 2019

## INTRODUCTION TO SOCCER

BBC is offering a two day holiday Introduction to Soccer workshop over the Term 4 break for boys and girls in Years 7 to 10. This is an introductory to intermediate level workshop and would be suitable for students who are beginners or who have had some experience in building and programming.

The Introduction to Soccer workshop will focus on building and computer programming skills that can be used to support the learning of STEM in schools, in particular, the Robocup Junior competition. Students will work individually and in small groups to learn how to build highly effective soccer robots and develop their understanding of text-based programming language. All of this takes place in a fun and educational environment.

BBC is continuing this new initiative to make coding accessible to everyone and we are pleased to extend the invitation to our wider local community.

Supervised by teachers and coaches. Students must bring their own lunch.

**DATE** Monday 9 December and Tuesday 10 December

**TIME** 9.00am to 3.00pm

**VENUE** Brisbane Boys' College  
Level 1, Middle School Precinct  
(enter via Moggill Road entrance)
