

DECEMBER 2019

ROBOTICS WORKSHOP

BBC is offering a two day holiday Robotics Workshop over the Term 4 break for boys and girls in Years 4 to 7. Students of all abilities are encouraged to attend.

The Workshops focus on building STEM skills (Science, Technology, Engineering and Mathematics) through the use of LEGO EV3 kits. Students will be able to work individually and in small groups to develop their knowledge and understanding of how robots work in order to solve problems and complete different challenges in a fun and educational environment.

Students will be guided through the key functions of how robots work. They will also be informed of the different competitions that they can be part of, however, the focus will be on the Robocup Junior competition.

Computers and software are provided. Supervised by teachers and coaches. Students must bring their own lunch.

DATE Monday 9 December and Tuesday 10 December

TIME 9.00am to 3.00pm

VENUE Brisbane Boys' College
Level 1, Middle School Precinct
(enter via Moggill Road entrance)

TICKETS \$150.00 per student (sibling discount available)
